Flashing:

Non-reinforced flashing is available in rolls **60 mils thick by 12 inches and 24 inches wide by 50 feet long**. Flashing is used for inside/outside corners, field fabricated pipe flashings, sealant pockets and scuppers, when the use of pre-molded accessories is not feasible. In addition, **45 mil thick by 6 inch wide by 100 foot long reinforced membrane** is available for flashing various metal edge details or to overlay fasteners and fastening plates. Both non-reinforced and reinforced flashings are available in white, gray and tan.
