

OlyBond500.

SpotShot
ADHESIVE FASTENER™

FAST. SAFE. EASY.

Winter Grade for use between 40° and 0°

Product Description

OlyBond500 SpotShot is a fast acting, dual-component, low-rise urethane foam adhesive designed to attach insulation to roof decks. SpotShot is dispensed through a portable 1:1 applicator, and is perfect for crickets, smaller roofs, hard to reach areas, and repairs. SpotShot does not create any odors or noise that might disturb building occupants.

Application

OlyBond500 SpotShot is applied in bands 12" on center, and allowed to rise prior to laying the insulation in place. SpotShot securely adheres to structural concrete, gypsum, cementitious wood fiber (Tectum®), lightweight concrete, steel and wood roof decks. It can also be used over smooth surface BUR, smooth and granular surface modified bitumen membranes, base sheets, and some vapor barriers. Contact Flex or the roof system manufacturer for application details.

Coverage

400–600 square feet per case.

Storage

Product must be stored upright, at room temperature, and kept from freezing at all times.
